

Jobs, not leads.

Hosts come to My Food Truck Concierge. We match the right trucks, collect one payment, and run logistics for College Station, Bryan, and the Brazos Valley. You cook and show up.

Qualified events

Date, location, guest count, pad, and budget are already on the request.

You set the price

Minimums, menus, travel, and staffing stay yours. We do not take a cut of the window.

No monthly fee

The host pays our concierge fee on top of your number. Membership is free.

We run the host

Power, parking, certificates, and the week-before texts stay on our desk.

HOW A BOOKING WORKS

1

A host requests an event.

2

We match approved trucks on cuisine, date, calendar, and pad.

3

You get a tentative job on your phone. Accept or decline.

4

The host approves the lineup, taxes, and our fee.

5

You cook and show up. We handle the rest.

The operator app

Sign in on your phone and add it to the home screen. Enrollment, insurance, menu, calendar sync with Google or Apple, and accept or decline matched jobs — no App Store wait. After we approve you, you are listed on the public site. Photos are formatted to match the network.

Who this is for

Trucks, trailers, and carts already working College Station, Bryan, and nearby towns — that would rather take qualified events than chase them. Current permits and insurance required. Partner Terms apply before you go live.

The reliability bar

Accepting a job is a commitment to appear. A no-show, or a cancel inside 24 hours of arrival, is permanent removal — except a documented emergency we approve in writing.

What we need

Legal business name, menu, truck length, power, permits, and insurance. We review every enrollment. Nothing is public until you are approved.
